- The scope of the school's education program or activity
- How to conduct an investigation and grievance process
- How to serve impartially, including by avoiding pre-judgment of the facts at issue
- How to avoid conflicts of interest and bias
- Decision-makers must receive training on any technology to be used at a live hearing and on issues of relevance of questions and evidence, including when questions and evidence about a complainant's sexual predisposition or prior sexual behavior are not relevant
- Investigators must receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence.
